

STOMACH MISERY  
JUST VANISHES

Time It! No Indigestion, Gas or Sourness Five Minutes After Taking "Pape's Diapiesin."

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapiesin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case someone else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty-cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapiesin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat, besides it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapiesin cranks, as some people will call them, but you will be cranky about this splendid preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion.—Adv.

## RAISE GIRLS' WAGES TO \$8

Eight Hundred International Harvester Employees Get Increase.

Chicago, March 21.—Eight hundred girl employees of the International Harvester company, twenty-four in St. Paul, Minn.; seventy-one in Auburn, N. Y., and the rest in Chicago, will have their salaries raised to \$8 a week beginning Monday, according to announcement made yesterday by President Cyrus McCormick.

The increase comes on the heels of the Illinois Senate's white slave inquiry into the relation between low wages paid to girls and vice. According to company officials, the increased wages will total \$25,000 annually. They said that hereafter no girl in the company's employ would get less than \$8 a week.

BOSTON HEARING  
LAST WEEK IN APRIL

The Report Will Then Be  
Rushed for Congress'  
Help

Washington, March 21.—Investigation of the affairs of the New York, New Haven & Hartford and the Boston & Maine railroads by agents of the interstate commerce commission has been practically completed.

It is expected that all the documents will be in Washington by the last of this week, and at a hearing to be given in Boston the last week in April by Commissioner Prouty, the final testimony will be taken. The report of the commission will be made at the earliest possible moment, for its importance to all interests is clearly recognized.

It is believed also that this report will be useful to Congress in the framing of legislation affecting the issuance of securities, as applying an object lesson in railroad finance.

## LOAN IS LIKELY TO FAIL

Large Support for Wilson in England—  
Objection To Coercion of Chinese.

London, March 21.—The announcement of President Woodrow Wilson that his administration had declined to request the American bankers of the six-power group to continue their negotiations for the Chinese loan came as a complete surprise to the British government. Only Tuesday, Sir Edward Grey, the British foreign secretary, in a written reply to a question in the House of Commons said the terms of the loan had the unanimous approval of the six powers interested. Their reply was hardly in print when the news came of the decision of the American government. There has been a good deal of dissatisfaction in London with the loan negotiations, for exactly the same reasons that President Wilson gives for the withdrawal of the support of the United States. Those publicists and papers which have been opposing Great Britain's support of the group take considerable satisfaction over the American action, and predict that with the withdrawal of the American bankers the whole scheme will fall through. They point out that Japan and Russia have no money to lend and that Germany at present has nothing to spare for China.

## THE RICHMOND CONFERENCE.

Pressing Problems of Country Life Will Be Discussed.

Farmers, business men, and school workers will meet to discuss rural schools, agricultural credit, marketing methods and other pressing problems of country life at the conference for education in the south, to be held at Richmond, Va., April 16-18. Each group will have special conferences on its own particular work, and then all will come together in a general session to discuss fundamental points in the uplifting of rural life.

In response to the invitation of Governor Mann, or Virginia, the governors of nearly all the southern states have appointed delegations of farmers and business men to attend the Richmond meeting and take part in the discussion of such important topics as: Lack of capital in farming and how it may be remedied; the tenant evil; its extent and influence; why business men are concerned with the rural problem; how to organize and conduct co-operative market associations; how to make the rural schools educate more effectively for the demands of country life; and how to make the country a better place to live in.

At the farmers' conference it is expected that a definite plan for organizing and managing co-operative marketing associations will be worked out. Before the business conference the facts about the farming situation in the South will be presented by men who have made a special study of its possibilities, and needs; and bankers, merchants, and manufacturers will discuss how they may aid in the development of agricultural resources.

One of the features of the conference will be an interstate meeting of state and county superintendents, teachers of agriculture, and other educators, at which the subject for discussion will be "The Most Effective Means for Developing the Rural School." A. C. Monahan, rural-school specialist in the United States Bureau of Education, will urge the necessity for a well-defined, constructive county plan in rural education. Typical rural-school problems will be discussed by county supervisors and others who are keenly interested in improving the country school, such as: Albert S. Cook, of Baltimore county, Md.; Zebulon Judd, Wake county, N. C.; Miss Rhea C. Scott and L. J. Hanigan, supervisors in Virginia and West Virginia, respectively; Miss Jessie Yancy, Mason Co., Ky.; A. H. Jones, Equality, Ala.; J. S. Stewart, Athens, Ga.; and many others.

Arrangements for the Richmond meeting are in charge of A. P. Bourland, of Washington, D. C., who is the executive secretary of the conference.

## MADERO MURDERED

IN THE PALACE  
He Was Stabbed To Death and Suarez Was Strangled—Attack on Auto Was Only a Ruse.

San Francisco, March 21.—Col. Manuel Blanche Alcide, publisher of the New Era, a Mexico City newspaper, regarded as the mouthpiece of the Madero administration, on arriving here yesterday, said, "I am in a position to prove Madero was stabbed to death and Vice President Suarez was strangled in the national palace the night of Feb. 23, and their bodies taken to the prison in an automobile."

"The reported assault by the guard was merely a farcical ruse and part of the plot," said Alcide. "If the automobile was fired on, the guards were only pouring lead into the dead bodies of the president and vice president, who were murdered in the palace hours before."

Alcide's mission in this country is to expose the plot. He escaped from Mexico, he said, through his disguise as a peasant.

## Little Surprises.

"Mister, here's them six tons o' coal you ordered this mornin'."

"No, sir; this isn't the real, genuine olive oil; that's why we can sell it so cheap."

"You don't need to waste any sympathy on me, old top; I'm satisfied with my work, my hours and my wages."

"Gentlemen, the conductor is asking us to move forward in the car. Come on; there's plenty of room."

"All right, old scout; you get your increase in salary. The fans all tell me you're worth it."

"Young man, your resignation is in the waste basket; I may as well tell you that we're going to make you a junior partner."

## FRAIL, SICKLY CHILD

Restored to Health by Vinol—  
A Letter to Mothers

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite. For the benefit of such mothers in this vicinity, we publish the following letter:

J. Edmund Miller, New Haven, Conn., says: "My little daughter ever since her birth had been frail and sickly and was a constant source of worry. Several months ago we commenced to give her Vinol. I immediately noted an improvement in her health and appearance, and from the good it has done her I can truly say it will do all you claim."

This child's recovery was due to the combined action of the medicinal elements extracted from cods' livers—combined with the blood-making and strength-creating properties of tonic iron, which are contained in Vinol.

Vinol will build up and strengthen delicate children, old people, and the weak, run-down and debilitated. We return the money in every case where it fails. Red Cross Pharmacy, Burt H. Wells, Prop., Barre, Vt.

## TAX RIOTS IN SPAIN

Collectors' Houses Are Burned In Toledo—Military In Control.

Toledo, Spain, March 21.—The death of a citizen wounded in a dispute with an octroi (tax) collector has caused a dangerous ferment. The houses of other collectors have been burned, shops have been closed and the city is controlled by the military.

The collectors of Santomera were stoned. The mayor intervened in the fight and was seriously injured.

## The Gold Dust Twins' Philosophy

THE Village Sewing Circle met to gossip, in their little set, but one opinion seemed to hold despite the tendency to "scold." When vexing problems, such as say, "What shall we do on Cleaning Day?" confront the Housewife, she may feel that Gold Dust tackles them with zeal.

## The Envid Housewife

Staid matrons told of what a bore it was to scrub each dirty floor; young housewives thought that dishes claimed more worry than some others named. All uniformly took a "bit" from household work and argued it, while all in turn were loud in praise of what a part their Gold Dust plays.

## The Mop is Mightier than the Board

The pennies count, as you must know, and cleaning makes the pennies go. If Gold Dust cuts the toil in two and makes economy come true, why not adopt the "Cleaner way" and join the "Gold Dust Club" today?

## FAVORS RECALL

Bill Presented To the Maine Legislature Provides For It.

Augusta, Me., March 21.—One of the most sweeping measures ever presented to the Maine legislature was a resolve proposing an amendment to the state constitution to provide for the recall of

public officials, introduced in the House yesterday by Representative Quinn of Milinocket. Under the act every public officer in the state would be subject to recall.

The act relative to the direct election of delegates to national conventions and to provide for the expression of preference for candidates for president and vice president of the United States was favorably reported yesterday by the committee on legal affairs.
